Not only will you be able to review the scripts, you'll also be able to purchase them through the app. You can do this with the traditional text on a computer, but one of the main benefits of this app is being able to go back and review your scripts in your convenience. You can use it with other platforms, such as Word, but this app is simply easier to use. It's like having a screen reader with you, even if you're on your phone. What are you waiting for? Download this free app now and get rid of those scripts. If you're a little bit lazy, you can download the script writing apps below: Q: How to pass argument into command in dockerfile and use it in the image I build? I'm making a docker file with all my images. I want to pass an argument into an image I create so I can use it in a

command in the script. Here is my docker file. ARG
BRANCH_NAME FROM maven:3.5-jdk-8 as base
WORKDIR /home/maven COPY pom.xml /home/maven/ RUN
mvn -s /usr/local/maven/apache-maven-3.5.3/bin/mvn package
This builds the image fine, but then I cannot call the package
command with the argument \$BRANCH_NAME. The error is:
Usage: mvn [options] [-f|--file FILENAME]
